

BRAZILIAN SHUFFLEBOARD ASSOCIATION ANNUAL REPORT TO THE INTERNATIONAL SHUFFLEBOARD ASSOCIATION

10 July 2020

Hello all,

This year has been very atypical for the world.

As many of you must have seen on the international news, Brazil has become an example of how NOT to deal with a pandemic.

I am sorry to say this but the country's current president is disastrous for the Brazilian people. He is terrible, both personally and politically.

Despite all the national political and health issues, fortunately no Brazilian shuffleboard players have been diagnosed with COVID-19.

I feel sorry for the Australian Shuffleboard Association. Ian and the organizer committee have been working hard to put a wonderful event and suddenly are forced to cancel everything.

But the important thing is that everybody stay safe. Let's hope to get through this difficult time as soon as possible, and get back on the courts with friends.

We are looking forward to meeting everyone again next year in Texas.

Best regards,

Bernar Borges

Brazilian Shuffleboard Association President
