

Canadian National Shuffleboard Association Report

The CNSA has had a very good year. Our membership is up this year.

We have a large number of players in the Province of Quebec who are very interested in getting involved in the CNSA. Quebec has not been taking part in our inter-provincial tournaments for the past two or three tournaments. I am trying to get them to start up clubs in their hometowns or cities.

They have so many shuffleboard players in that province, who winter in Florida and Texas but do not have a place to play in the summer months. There are many great players there and the CNSA needs their involvement.

We had tremendous interest in the ISA team tournament in Australia. We had a full complement of players, three women teams and three men teams. Unfortunately the coronavirus has forced cancelation of the Australia ISA team Tournament.

I feel bad for Ian and his committee members. They put in a lot of hours and hard work preparing for this event.

We are looking forward to the ISA Singles Championship, October 2021, in San Bonito, Texas USA. Ann and Evan Engell have worked very hard preparing this tournament.

Next year the CNSA will have elections and we have many qualified people who are willing to step up and serve on the CNSA Executive,
The elections will take place at the next Inter provincial in Nova Scotia 2021.
The host Club in Nova Scotia is the Bluenose Shuffleboard Club in Bridgewater NS.
We are looking forward to another great year.
I also want to thank all the Presidents and ISA Executives for voting me into the ISA Hall of Fame.
I feel honored and privileged to join this prestigious group of shufflers.

Stay Safe and Healthy.

Best Regards,

Jim Corbeil, President,

Canadian National Shuffleboard Association
