

Japan Report

After celebrating the JNSA 40th Anniversary and the New Year, coronavirus has begun to spread all over the world.

We have four seasons in Japan. Spring is the most beautiful season and good for outdoor sports

Every spring we have a big party under beautiful cherry blossoms at a park near our courts after playing shuffleboard. It is so fun for us to talk and eat and drink after cold winter season.

Many shufflers were expecting such a wonderful party.

But unfortunately we could not have it and we have to stop many activities because of coronavirus this year

It has been so hard for us to stay at home for more than two months

.

From Jun first we were allowed to go out because of decreasing the number of coronavirus. So that we have started again to enjoy shuffleboard with masks

Now we feel so happy to go out and play shuffleboard with many friends.

We do not want to stay at home any more.

Please take care of yourself and see you at San Benito in 2021.

Akira Kawai

JNSA President
