

UKSA ANNUAL REPORT 2020

Sadly there is not much to report on shuffleboard in the UK this summer as you can imagine. Numbers at our clubs were on the rise in the early part of the year and we had to put on hold publicity plans to recruit more players as we were getting rather full. We were looking forward to organizing a few more competitions but naturally we have had to shut down since March.

We are currently discussing the ramifications of shuffling at a social distance when we return and believe we can do it within reason. It will mean setting up fewer courts and limiting the numbers.

We look forward to the next European Championships in the Netherlands in May 2021 and expect a good turnout from the Brits.

On the commercial side, we continue to receive growing interest from other countries around the world and there is the likelihood of selling a number of courts to India in the coming months.
