

NORWAY'S ANNUAL REPORT 2017

The Norwegian Shuffleboard Association (NSF) currently has about 60 members. Every year we play 5 national tournaments, and this year we also had players competing in the first European championship in Germany. This was a very good organized tournament with a lot of fun - and also some good result for us Norwegians.

We are very sorry that we just participate with two players from Norway at the 36th ISA singles tournament in Brazil, but after moving the dates for the tournament from August to July, it became difficult for many of the Norwegian players to change their plans for the summer.

For the future we hope that all championships are not to be played in July, since that is in the middle of the Norwegian summer. And that summer is very short 😊

We wish all of you good luck in Brazil!

Hallvard Flatland

NSF President
