

JNSA REPORT

Tokyo 2020 Olympics and Paralympics were over successfully and safely on September 5th 2021. Many people have enjoyed watching them on T.V all day long with deep emotion. Olympians and Paralympians have left us a lot of courage and hope under this global pandemics.

At Yokohama courts, we are able to enjoy playing shuffleboard with masks and social distances 3 days a week in the morning.

As for Tokyo courts, those are located in the same area with Olympic Aquatics Center. Due to the security we have been unable to enjoy shuffleboard from March 1st 2021. According to the original schedule we will be able to enjoy shuffleboard from November 1st.

Right now the world is in big trouble due to COVID-19, so I hope that we can return to normal life, even if it' only a day sooner and we can meet many shufflers coming from different countries at ISA World Championship in 2022.

Akira Kawai
