

Covid could not stop us

It has been some strange months to us all.

However, I have a feeling Norway was not “hit” as hard as many other countries.

We were able to play all our tournaments in 2020 without any problems.

My feeling is that the quality of our play has increased over the last years, with the gold medals to Ellen Hansson in Brazil and Mats Graff-Wang in Vienna as the big highlights.

Funny enough Mats has not won any tournament in Norway with his golden cue, which shows we have more than one class-player.

We hope to have a strong team when we hopefully meet in Canada next year!

Best regards from

Hallvard
