

UKSA REPORT 2021-10-07

Shuffleboard in the UK is finally coming back to life after recent events. Our regular club is open again and picking up new members. Another club is also about to launch in the South of England.

In the meantime courts have been supplied to all the Warner Holiday resort hotels throughout the country. This is the UK's leading chain favoured by seniors for short vacations. It is already proving very popular and is sure to lead to an uptake of the sport. Equally, shuffleboard "nightclubs" are starting to pop up all over the country which will introduce younger players to the game.

Sadly the European Championships in Holland in 2022 have had to be postponed again but we anticipate sending a contingent of UK players to Ingersoll in August next year.
