

ANNUAL REPORT TO THE INTERNATIONAL SHUFFLEBOARD ASSOCIATION

Another unique year has passed since my last report to the ISA as a result both of the Covid virus and its variations and the unusual sub tropical weather patters of the last few months where we have had many more days when we have been able to play on our outdoor courts

Our courts are in the State of Queensland on the border with the State of New South Wales and due to Covid for many weeks the border was closed and guarded to ensure all but absolutely essential workers entered, so our NSW members were unable to come and play. Unfortunately as a result, many found other 'more interesting' things to do and haven't returned since the border opened.

Notwithstanding, subject to to the above and with certain Covid restrictions in place, we have been able to keep the courts open for the whole year and keep the majority of our members fit and happy.

Our current aim is to rebuild the numbers back again to our optimum number of about 100 members and this is slowly happening.

This year Australia won't be able to be represented at the 39th International Tournament at Ingersol in Canada, however we wish all involved our best wishes for a safe and enjoyable week.

We would like to thank Dieter Hussmann for again agreeing to be the Australian proxy at the up and coming Annual Meeting.
